Project Management:

Project management is the area IBCS-PRIMAX has mastery over. From its inception in 1989 to 2010, it has successfully completed more than 300 projects for the clients from home and abroad.

None of the other IT firms in this region of South-East Asia has such a large portfolio in project management arena.

IBCS-PRIMAX is proud to extend its helping hands in project management for Their clients in managing their ICT related tasks and for a successful completion.

Main objective of this company:

The main objective of this company is provide best services to their client. IBCS-PRIMAX's main focus is on maintaining the quality of its products irrespective of what the client demands or not. That means, a client may not be aware of the quality of a product and is satisfied only with a rough solution. In such a case, only a temporary solution may satisfy the client, but IBCS-PRIMAX Software (Bangladesh) Limited will never do that. Rather IBCS-PRIMAX will analyze the need of the client and scope of the development. After that, with a clear focus on the customer's needs and today's technology trend, come up with the best solution for the client even if the client is not ready to pay for such extra efforts.
